

December 272, 2025: Letter to Texas State Senator Jose Menendez

Good morning,

I am writing to inform you that Donald Trump's administration has been maliciously spying on our house and home life for about four years or more now and is continuing to exert itself over our home as an unlawful and harmful presence that is intentionally destroying our peace and happiness.

This all began around the middle of 2020 when I started filing public information act requests related to the 2020 Presidential election. I filed requests with the eight largest counties in Texas to produce the data which supported their purported vote totals.

Since that time, I was also elected to (and resigned from) a local position as the Precinct Chair of Precinct #2053 of the Republican Party of Texas.

During the initial development of those efforts, the Donald Trump campaign for President (his 2024 campaign began immediately after losing the 2020 election) started attempting to communicate with my home using various forms of 'anonymous' communications which seemed to request or direct my participation into various political activities.

Since beginning that process of 'adjusting' my behaviors to match their own political ambitions, their campaign team has continued to spy on my home in a real-time fashion, every hour, every day, every week, and every month for more that four years now.

I am expressly reporting to you, as my elected representative, that Donald Trump's team has been illegally spying on our home and attempting to harmfully engage my life for more than 1460 consecutive days in a row and shows absolutely no signs of stopping their unwanted presence in our home.

I am essentially being kept within a 'bubble of oppresson' that amounts to (at minimum, an apparent) false imprisonment, private nuisance, and a threat against me by physically and emotionally for attempting to bring anyone's attention to this ongoing effort to cause us harm.

Their team is (at this very moment) driving very loud vehicles past the front of my house to indicate that these communications are being monitored and are subject to their ongoing 'private nuisance' retaliations.

I have reported this matter to the US Secret Service, the FBI, the Texas Rangers, the San Antonio Police Department, and the Periana Police Department in Spain. I have also contacted numerous legislative committees and military branches about this activity and received literally zero response or feedback from any office. I can personally attest that I am witnessing their police-state powers being exemplified to me as being active members of this criminal conspiracy.

I have been investigating this illegal behavior for a long time now and can report (and evidence to you) that the criminal conspiracy is as follows: 1) the USA national security apparatus has an unlawful criminal element that is joined with local law enforcement and businesses in the private sector; 2) the private sector, specifically the Space-X Star-Shield program has a criminal element that is joined with 'secret' criminal communities; 3) the secret criminal community is being coordinated through organizations such as the Freemason 'Secret' Society; and 4) the 'secret' coordinating teams are pushing instructions to various smaller groups, gangs, clubs, and the like around communities across the world.

I moved all the way to the small community of Periana, Spain near Malaga and experienced this exact plot being carried out in that community in the exact same way that it is being carried out in Bexar County, Texas. I am advising your office that world-wide criminal organization is being administered through a criminal element of our United States military.

I am advising your office that my home is the continuing victim of an ongoing form of psychological warfare that does amount to treason against our home and community that is being pushed forward by the Donald Trump Presidential administration.

I am alerting your office that this behavior began in the form of communications from the Donald Trump campaign for President and has continued to cause a nuisance in my life through members of the United States military, veterans, active duty first responders, mail carriers, and people within publicly owned corporations.

I understand that this type of criminal conspiracy is beyond the reach of any one politician and I also understand that many of our political community are currently being attacked by the same forces that I am describing to you in this email.

My goal and intention by reaching out to my elected representatives is to bring awareness to your office so that you can understand exactly where these forces are beginning and how they are showing themselves to us on the ground in a continuously abusive cycle of malicious spying, criminal stalking, criminal threats, and attempted extortion.

I am hoping to raise awareness with those people that are in the best positions to provide oversight over such a large (world-wide) criminal conspiracy that is absolutely and without a doubt beginning and manifesting itself from inside of the United States military branches.

If you have any questions, I am happy to provide evidentiary proof that I have been collecting over the last four year to indicate the forms of their spying, the current tools that they are using to instill terror in their targets, and the general capabilities / limitations that have been evidenced to me, personally.

I am happy to testify publicly and before criminal grand juries to help bring justice back to our communities.

This problem has grown to be excessively large and must be brought to heel by the light of truth and justice.

Your help, as our elected political representative, is crucial to bringing this criminal conspiracy into a manageable state for law enforcement to re-assert itself as the more powerful force in our community.

Unfortunately, at this time, I am keenly aware that this criminal conspiracy has grown beyond the reach of our law enforcement and courts of justice in America.

Please circulate this information among the political networks so that everyone can become aware of the methods of abuse that are being used by the current administration and military branches.

Thank you for your time and attention to this very important matter.

Kindest regards,

Senator José Menéndez: District 26

Bills: [E-mail](#) · [Office Information](#) · [Committee Membership](#) · [District Information](#)

Occupation: Vice President, Stewart Title Guaranty;
Director, Multicultural Market

Legislative Experience: House Member, 2001 - 2015;
Senate Member: 2015 - present

Hometown: San Antonio
